Get to know your next hire

**Pre-hire background
checks and employee
screening to uncover
your next candidate**

We make background screening for candidates simple, straightforward, and user-friendly.

Reduce risk

No more bad apples - source the best talent with the right qualifications, experience and background.

Hire faster

Speed up your time to hire with an easy-to-use system that integrates into your existing workflow.

Scale up

Reach your ambitious business plans more quickly across global markets with our compliance know-how.

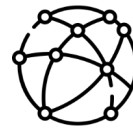

Compliant

Proud to be GDPR, SOC-2, and PDPA-compliant, ensuring data security and scalability.

Integrated

Software integrates with all the key ATS, HR platforms, and Employer of Record players

Global

Over one hundred different checks, countless industries, and in more than 160 countries.

Easy to use

Automated and totally straightforward background screening with a great customer experience

No lock-in

Zero commitment pay-as-you-go employment checks without the long-term contracts

Stay updated

Screening that keeps you informed with real-time updates, accelerating your time to hire

● Our team

Our network of offices across the world deliver checks with speed, accuracy and reliability in over 180 territories. Our global support teams are available around the clock to provide expert help and care.

● Our pricing

Veremark provides transparent pricing options, offering customers the flexibility of cost-management choices, that match their own business needs, whether it's on-demand; subscription; or pre-paid bulk packages.

● An improved candidate experience

We know that in today's competitive hiring landscape, you can engage more job seekers, attract top talent and shorten the time to hire by simply providing an excellent candidate experience.

That's why, with our innovative career passport, **Verepass**, clients and candidates own their own data. Using blockchain technology, Verepass stores unique shareable checks to the candidate, so re-verification doesn't need to be performed again in the future.
